

Juniper is a leader in Enterprise Networking

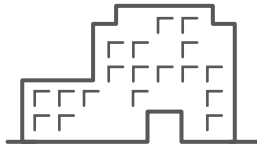

Growing businesses choose Juniper for our vision of engineering simplicity. Our multicloud-ready solutions connect and protect your data center, campus, branch, and public cloud with consistent policy and control across your network.

You can add open, intent-based connectivity today and evolve your operations smoothly to be more agile and automated. Let us help you in your path to secure and automated multicloud, with solutions designed for a multivendor world.

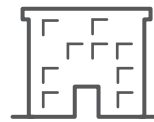

Data Center

- Workflow automation
- Upgrade servers from 1/10GbE to 25GbE
- DC consolidation/redundancy/expansion

Campus

- Campus refresh/expansion
- Growth of IoT
- WLAN refresh (11ac Wave 2), multigig access needs

Branch

- Device consolidation with virtualized network services
- WAN cost reduction
- Hybrid WAN for redundancy

Public Cloud

- Lift-and-shift applications to the cloud
- New security or compliance regulations
- New cloud-native apps
